Authorized as second class mail, Post Office Department, Ottawa.

In the Legislature

By H. G. HAMMELL, M.L.A.

The Debate on the Budget was the highlight of activities in the Alberta Legislature last week. Premier E. C. Manning brought down the largest Budget in Alberta's history, exceeding \$47,000,000.

Considerable additional grants are seen in every department, with education and public works getting the most dollars.

The premier's address showed an over-all increase of \$83,000,000 in the price value of agricultural products for last year. The only important decrease in agricultural production was a \$13,000,000 decrease in hog values. There were 1,700,000 fewer hogs marketed in Alberta last year than in 1944.

Livestock Feeder Association last year handled more than 70,000 animals, valued in excess of \$1,000,000.

Treasury Branches now show deposits exceeding \$26,500,000, which was an increase of \$2,500,000 last year. The year's surplus on operations is \$65,205.

There has been much talk of the government having a \$10,000,000 surplus last year. Here are the facts:

There was an over-all surplus of \$10,310,856.61. Of this more than \$2,000,000 was used to redeem savings certificates; \$18,000 was used to pay on treasury bills held by the Dominion Government; and twelve and one-third million dollars was used for debt retirement and adjustment payments arising out of our debt re-organization. This was partially offset by Accounts Payable of \$853,000, which left an over-all deficit of \$2,982,799.76 which came out of the accumulated surpluses of past years.

It is not possible in this short space to deal with all aspects of

the Budget but I wish to deal with the treasury bills of the province and hope that at a later date I may deal in more detail with the debt re-organization program.

The total indebtedness of our treasury bills is \$26,200,000 bearing 3 percent interest. This is made up of (a) Dominion advances for direct provincial relief \$10,595,000; and (b) Dominion advances for purposes other than relief \$15,621,000. The Dominion government agrees to cancel 50 percent of the relief bills, or \$5,297,500 and charge no interest on the balance of the treasury bills for relief.

The Province of Alberta will retire \$7,997,750 of non-relief interest bearing treasury bills. This will be paid by applying an award on natural resources made in 1935 by the Royal Commission. This award by the Royal Commission to Alberta was \$5,000,000 in 1930, at five percent interest for five years, and then interest at the same rate as the treasury bills. This award today amounts to \$7,997,750.

Our new position then is that our treasury bill debt will be reduced by \$13,295,250, and the balance owing will be \$12,920,750 of which \$5,297,500 will bear no interest and will be amortized over 30 years. The remaining \$7,623,250 will be amortized over 30 years, bearing interest at 2.5-8 percent. The province's annual cost, including principal and interest, will be \$547,000. The province has been paying \$788,000 in interest alone on the treasury bill indebtedness. Our annual debt service charge on treasury bills will be reduced by \$241,000 and in 30 years will be no debt.

Through the courtesy of the editor of this paper, I will give more details on certain aspects of the Budget next week.

OUR HALF ACRE

By H. J. Umbrite

Pale Western
Cutworm Outbreak

Entomologists inform us that there is every likelihood of a severe cutworm outbreak in parts of this municipality. The area bounded by the CNR on the west, the Red Deer River on the east and from Trochu to the southern boundary of the municipality is where the severe outbreak will probably occur.

Damage will be most likely in fields which were disturbed in August and early September and also in fields that are going to be stubbled in. Fields which had a crust on them during this period are not so liable to be damaged.

Farmers who disturbed their land during this period and noticed the cutworm moths would be well advised to use the starvation method to rid their fields of this pest.

The very young cutworm can

be destroyed by starvation in the open field if, after they have started to feed and develop, the food supply is destroyed by a period of cultivation. In infested fields spring cultivation should be delayed until weeds (except stinkweed) and volunteer grain are from one to two inches above the surface of the ground. At this time the whole field should be cultivated, leaving soil black and seeding should take place only after a delay of ten days from the time of cultivation.

For further information regarding the probable cutworm infestation contact the District Agriculturist, Drumheller, or the Field Supervisor.

OBITUARY

Florence Bramley

Florence Bramley, 18, died Friday at the home of her sister Mrs. W. E. Scollen of Windsor Park. Miss Bramley had been in Calgary about two months. She was born and educated in Carbon.

Surviving are her mother, Mrs. Florence E. Bramley, two sisters, Mrs. Scollen and Mrs. V. Hawkins, four brothers, Albert Sydney and Gordon, Carbon, and Leslie, Calgary.

Funeral services were held in Calgary on Tuesday. Archdeacon Axon in charge. Burial was in Queen's Park cemetery.

William Shyka

William Shyka died Monday, March 17th after a lengthy illness. He was born in Austria March 15, 1890 and came to Canada in 1912, moving to Carbon in 1922. He was a miner here for 22 years.

Surviving are his wife, five daughters, Mrs. K. Pronyshyn, Midlandvale; Mrs. A. Engelheart, Revelstoke; Mrs. J. Romanack, Vancouver; Mrs. Leslie Obbagy, Carbon, and Olga, at Vancouver; one son, Nick, Carbon; three brothers and one sister.

Rev. Fr. O'Brian of Drumheller conducted funeral services in Carbon Thursday morning. Interment was in Carbon cemetery.

FORMER POSTMISTRESS ADMITS THEFTS

Mrs. Christine E. Pomroy, former postmistress at Rockyford, pleaded guilty to 24 charges involving thefts from the mails when she appeared before Mr. Justice C. J. Ford in Supreme Court on Tuesday.

The charges dealt with the theft of eight cheques totalling \$2,763, forging signatures and cashing the cheques in Calgary between May and December, 1946. The cheques had been issued by the Dominion government and the Canadian Wheat Board.

Rev. A. F. Cowan, pastor of the Rockyford United Church for the past eight months, said, "speaking for the community generally, Mrs. Pomroy had a character of the highest order. She has been a good wife and a good mother."

Mr. Justice Ford then interrupted to inquire: "To what extent have you had an opportunity to form an opinion of the character of Mrs. Pomroy?"

"By talking to the people of the district and I have been in her home many times," the minister replied. "It was a good home and a happy one."

Mr. Cowan said he could give no reason for Mrs. Pomroy's actions.

"It came as a surprise and a shock. No one expected it," he explained, "and people could hardly believe their ears when it came out."

F. C. Moyer of Drumheller is appearing for Mrs. Pomroy and C. S. Blanchard, K.C., is acting for the Crown.

CARD OF THANKS

Words cannot adequately express our deep appreciation for the many kind and sympathetic acts that came to us at the time of our recent bereavement.

The Shyka Family.

In Bari, Italy, a suspected jewel thief was hypnotized and he led police to where he had hidden the jewels.

PATRONAGE DIVIDENDS

The Pioneer Grain Company has paid patronage dividends for the years ending 1942, 1943, 1944 and 1946. We will pay a patronage dividend for 1945 in a short time. If our earnings permit we intend to pay a patronage dividend for this crop year, so for better service and returns

WORLD OF WHEAT

By H. G. L. Strange

An International
Wheat Agreement

In 1933 it will be remembered a number of exporting nations signed an international wheat agreement. This agreement, however, had a sad fate. It broke down within a year. Argentina exceeded her quotas and deliveries but she blamed other countries for not having previously lived up to the terms of the agreement. Many will be astonished to hear that the same agreement is up again for consideration. Delegates of a number of countries will meet in London to debate it. It is similar to the 1933 agreement but has some additional clauses. The proposals to be debated are for a minimum price of \$1.25 and a maximum of \$1.55 to last for four or five years. It is expected that each government will control production which means controlled acreage, so that a certain "carry over" only is maintained each year.

We already have complete national control in Canada's Bill No. 23. This new international agreement, if it should be signed and approved by a number of governments concerned, will give not only national control but international control over Canada's great wheat industry, including, of course, our own producers. If the international agreement is signed there would be little liberty of action left to our prairie farmers.

ANIMAL FATS PRICE INCREASE

An increase of three and one-half cents per pound has been allowed on caul, kidney, cod fat from beef, veal and lamb and chopped suet from beef.

This increase became effective on February 15 and was granted to bring the price of animal fats into proper relation to the prices of refined animal tallow which was recently increased by four and one-half cents per pound.

CANADA'S BARLEY KING WILL BE NAMED APRIL 1

The name of Canada's 1946 Barley King will be announced at the Manitoba Winter Fair at Brandon April 1st.

Winner of the award, whoever he may be, will be picked from the 12 provincial winners, four from Manitoba, four from Saskatchewan and four from Alberta. Provincial winners in Alberta and Saskatchewan have already been announced. The provincial winners in Manitoba will be announced at Brandon when interprovincial awards are made.

The \$25,000 National Contest sponsored by the Brewing and Malting Industries of the nation drew nearly 1250 entries from the western division.

The contest will be renewed in 1947 under rules and regulations substantially the same as last year. Copies of the regulations will be available for distribution within a few days and as before, will be obtainable at all country elevators.

The log cabin was introduced to North America by members of the Swedish West Indies Co. over 300 years ago.

During many months of the year more water evaporates from the Great Lakes than flows over Niagara Falls.

Because of a shortage of paper in Britain today, Shakespeare is difficult to get and there is a scarcity of Bibles.

ALBERTA EDUCATIONAL COUNCIL

Town and city schools have been able, during good times and bad, to maintain the schools at a satisfactory level of proficiency. The fact that each of these communities represents a certain concentration of wealth on which funds for school purposes can be levied with some measure of ease will explain this. These centers have been well satisfied to receive rather small assistance from the Provincial Treasury while rural areas with smaller money resources have received much greater aid. The present campaign by the Alberta Educational Council to have the provincial government finance elementary and secondary education to 50 percent of its cost does not mean that all schools in the province would, were such a reform introduced, have one-half of their costs transferred to the government. It means rather that on an over-all basis financial assistance from general revenue would be raised from the present rate of 22 percent to 50 percent. The great bulk of the additional money thus provided by the government would go to rural and village areas. Cities like Calgary and Edmonton might look forward to grants equalling 15 to 20 percent of their costs in place of the present 5 or 6 percent, and other localities might receive 75 to 80 percent assistance. The basic purpose of the effort of the Alberta Educational Council is to promote a greater measure of educational equality throughout the province and provide every child and youth with the opportunity for a sound education.

GRAINGER FAMILY HONORED

That the old order changeth is being brought home to many present and former residents of Grainger district.

Neighbors gathered in Simcoe School recently to honor Mr. and Mrs. Geo. Grainger and family and Mrs. Edith Grainger.

With games, sing-song and dancing of old time dances, a very pleasant evening was spent. After lunch Mr. Len Sherring called on Mr. Van Wart to present the gift of a floor and table lamp to Mr. Grainger and family and of a handbag and lace tea cloth to Mrs. Edith. As a close neighbor and old timer, he recalled the old days and voiced the sentiments of the community at the family leaving Grainger, which incidentally was named after them. Mr. Jim Gordon, another old timer, paid his tribute too, and both, on behalf of all present, wished them all the best of luck in the future.

The singing of Auld Lang Syne concluded the evening's activities.

OFF THE RECORD

It is reported that just sitting quietly for a short time will cure anyone who is inclined to lose his or her temper when provoked and this seems to us like a good idea, especially if a person can't stand it!

CANADA NEEDS MORE IMPROVED BARLEY

By encouraging the growing of improved quality seed and malting barley the brewing and malting industries of Canada through this contest are contributing to the meeting of Canada's domestic needs and assuring successful re-entry of the Dominion in world barley markets. Because Malting Barley is used in a wide range of products for home, farm, industry—in foods, drugs and general articles—it is playing an ever-increasing part in the industrial and economic life of Canada.

1946 COMPETITORS PLEASE NOTE:

Full list of 1946 National Barley Contest winners will be published following the awarding of inter-provincial prizes at Manitoba Winter Fair, Brandon, Manitoba, Mar. 31st.

CARBON NEWS

It is reported that "Fat" who operated the Club Cafe here for a number of years before disposing of it, died in Calgary recently.

The Junior Ladies' Aid held a successful bazaar shower at the home of Mr. C. T. Ross Wednesday evening.

Mr. Norman Lock has left for his home in Hamilton, Ont., after spending the past six weeks visiting at the home of Mr. and Mrs. Walter Williamson.

The road being washed out between Beiseker and Irricana disrupted bus and truck service to Carbon this week.

The Kneehill Creek went on the rampage Wednesday afternoon and overflowed its banks. Many residents on the Island were forced to move out and in the village proper Mr. and Mrs. C. H. Naab, Mr. and Mrs. Jas. Flaws and family and Mr. and Mrs. Geo. King were forced to leave their homes. At press time the water was still quite high and ice was beginning to jam at the bridge by the station.

The Old Timers dance which was to have been held on Monday evening was postponed.

Albert Gieck is busy plastering the new home of Mr. and Mrs. J. Atkinson, Jr.

Mr. and Mrs. Wilf White are here from the coast packing their furniture. Wilf has a job in Vancouver and plans on residing there in the future.

Mr. and Mrs. Henry Trumbley of Calgary were week-end visitors at the home of Mr. and Mrs. C. Trumbley.

Mrs. W. Oliphant of Merco is visiting her parents Mr. and Mrs. W. Williamson.

Art Levins, R.C.M.P., spent a few days in Carbon with relatives and friends recently. Art is now stationed at Winnipeg.

The Junior Ladies' Aid will hold a tea and sale of fancy work and home cooking in the Scout Hall, on the afternoon of March 29th.

Will your name be on the list of contributors to the Red Cross? Better see a canvasser right away.

G. W. Wacker's Auction Sale, half mile west of Swalwell on Tuesday, March 25th. Full line of machinery and some furniture. N. Boese, Auctioneer.

Children save your pennies. Only ten to make a dime. And bring your parents to the JUNIOR AID FISH POND. Where a catch is made every time.

The village of Beiseker is probably unique in Canada in that it has not 5 cents worth of arrears of taxes on its books, according to a report by Hon. C. Gerhart, minister of trade and industry.

ONE PRICE, THE SAME TO ALL, WE ARE NOT ON A CASH BASIS BUT PLEASE NOTE WE ARE ON A
